2MP · 30M IR · IP66 · IK10 · Smart Stream II · SNV · Defog

VIVOTEK's IB8369A is an all-in-one bullet-style network camera designed for diverse outdoor applications. Equipped with a 2MP sensor enabling viewing resolution of 1920x1080 at a smooth 30 fps, the IB8369A is an ideal and highly adaptable outdoor camera capable of capturing high quality video at high resolutions of up to 2 Megapixel.

IB8369A

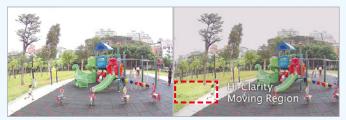

Bullet Network Camera

The IB8369A features VIVOTEK's sophisticated Smart Stream II technology, allowing the camera to optimize image quality for the most important regions in any scene, and thus ensuring maximum efficiency of bandwidth usage and savings of up to 50% on bandwidth and storage requirements. In order to adapt to constantly changing outdoor lighting conditions, the IB8369A also features a removable IR-cut filter as well as IR illuminators effective up to 30M for superior image quality around the clock. For protection against harsh outdoor environments, the camera is encased in a weather-proof IP66-rated housing, making it impervious to rain and dust. The robustness of the IB8369A is further strengthened by the adoption of rugged IK10 design housing.

Incorporating a number of advanced features standard for VIVOTEK cameras, including video rotation, defog, a dedicated MicroSD/SDHC/SDXC card slot, and VIVOTEK's 32-channel recording software, the IB8369A is the ideal solution for your outdoor surveillance needs.

Key Features

- · 2-Megapixel CMOS Sensor
- · 30 fps @ 1920x1080
- · Real-time H.264, MJPEG Compression (Dual Codec)
- · Removable IR-cut Filter for Day & Night Function
- · Built-in IR Illuminators, Effective up to 30 Meters
- · Built-in 802.3af Compliant PoE
- · Built-in MicroSD/SDHC/SDXC Card Slot for On-board Storage
- \cdot Supports ONVIF Standard to Simplify Integration and Enhance Interoperability
- · Weather-proof IP66-rated and Vandal-proof IK10-rated Metal Housing
- · Smart Stream II to Optimize Bandwidth Efficiency
- · 3D Noise Reduction
- · Smart IR Technology to Avoid Overexposure
- \cdot SNV (Supreme Night Visibility) for Low Light Conditions
